SECTION 2 HAZARDS IDENTIFIC	ATION
2.1 Classification of the substance or	mixture
Product definition Mixture	
	o. 1272/2008 [CLP/GHS]
Classification according to Regulation (EC) No	o. 1272/2008 [CLP/GHS]
<u>Classification according to Regulation (EC) Ne</u> Asp. Tox. 1, H304 The product is classified as hazardous accord	ing to Regulation (EC) 1272/2008 as amended.
<u>Classification according to Regulation (EC) N</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem	ing to Regulation (EC) 1272/2008 as amended.
<u>Classification according to Regulation (EC) N</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem	ing to Regulation (EC) 1272/2008 as amended.
<u>Classification according to Regulation (EC) N</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem	ing to Regulation (EC) 1272/2008 as amended.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem 2.2 Label elements	ing to Regulation (EC) 1272/2008 as amended.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem 2.2 Label elements	ing to Regulation (EC) 1272/2008 as amended.
<u>Classification according to Regulation (EC) N</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms	ing to Regulation (EC) 1272/2008 as amended.
<u>Classification according to Regulation (EC) N</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms	ing to Regulation (EC) 1272/2008 as amended. ients declared above.
<u>Classification according to Regulation (EC) Na</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements	ing to Regulation (EC) 1272/2008 as amended. ients declared above.
<u>Classification according to Regulation (EC) N</u> Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements	ing to Regulation (EC) 1272/2008 as amended. inents declared above.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention	ing to Regulation (EC) 1272/2008 as amended. tents declared above. <b>Danger</b> H 304 : May be fatal if swallowed and enters airways. Not applicable
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response	ing to Regulation (EC) 1272/2008 as amended. ients declared above. <b>Danger</b> H 304 : May be fatal if swallowed and enters airways.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage	ing to Regulation (EC) 1272/2008 as amended. ients declared above.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture,	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) No Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture, placing on the market and use of certain	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) New Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) New Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles <b>2.3 Other hazards</b>	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) Ne Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles <b>2.3 Other hazards</b> Substance meets the criteria for PBT or vPvB	ing to Regulation (EC) 1272/2008 as amended. ents declared above. Danger H 304 : May be fatal if swallowed and enters airways. Not applicable P301 + P310 + P331 - IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT indu vomiting. Not applicable P501 - Dispose of contents/container in accordance with all local, regional, national and internation regulations. Not applicable
Classification according to Regulation (EC) Ne Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles <b>2.3 Other hazards</b> Substance meets the criteria for PBT or vPvB according to Regulation (EC)	ing to Regulation (EC) 1272/2008 as amended. ents declared above.
Classification according to Regulation (EC) Ne Asp. Tox. 1, H304 The product is classified as hazardous accord See Section 16 for the full text of the H statem <b>2.2 Label elements</b> Hazard pictograms Signal word Hazard statements Precautionary statements Prevention Response Storage Disposal Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles <b>2.3 Other hazards</b> Substance meets the criteria for PBT or vPvB according to Regulation (EC) No.1907/2006, Annex XIII	ing to Regulation (EC) 1272/2008 as amended. tents declared above. Danger H 304 : May be fatal if swallowed and enters airways. Not applicable P301 + P310 + P331 - IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT indu vomiting. Not applicable P501 - Dispose of contents/container in accordance with all local, regional, national and internatio regulations. Not applicable

# Safety Data Sheet

Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878.

## SECTION 3 COMPOSTION/ INFORMATION ON INGREDIENTS

3.2 Mixtures	Mixture			
Product/Ingredient name	Identifiers	%	Classification Regulation (EC) No. 1272/2008 [CLP]	Туре
Distillate (petroleum), Severely hydrotreated light Paraffinic Oil.	EC: 265-156-7 CAS: 64742-55-8	> 99	Asp. Tox. 1, H304	[1] [2]

Regulation (EC) No. 1272/2008 [CLP] Annex VI Nota L applies to the base oil(s) in this product. Nota L – The classification as a carcinogen need not apply if it can be shown that the substance contains less than 3 % DMSO extract as measured by IP 346.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section. <u>Type</u>

[1] Substance classified with a health or environmental hazard.

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

# SECTION 4 FIRST AID MEASURES

4.1 Description of first aid measures	
Eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue
	rinsing. If irritation, blurred vision or swelling occurs and persists, obtain medical advice from a specialist.
	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If
Inhalation	casualty is unconscious and: If not breathing, if breathing is irregular or if respiratory arrest occurs, provide
	artificial respiration or oxygen by trained personnel. Get medical attention if adverse health effects persist or
	are severe. Maintain an open airway.
	Wash with soap and water. Remove contaminated clothing and shoes. Handle with care and dispose of in a
Skin contact	safe manner. Seek medical attention if skin irritation, swelling or redness develops and persists.
	Accidental high pressure injection through the skin requires immediate medical attention. Do not wait for
	symptoms to develop.
	Always assume that aspiration has occurred. Do not induce vomiting. Can enter lungs and cause damage. If
	vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Seek professional
Ingestion	medical attention or send the casualty to a hospital. Do not wait for symptoms to develop.
	Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get
	medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or
	waistband.
	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the
	person providing aid to give mouth-to-mouth resuscitation.
	Before attempting to rescue casualties, isolate area from all potential sources of ignition including
Protection of first-aiders	disconnecting electrical supply. Ensure adequate ventilation and check that a safe, breathable atmosphere is
	present before entry into confined spaces.
4.2 Most important symptoms and effe	ects, both acute and delayed
Potential acute health effects	
Eye contact	Eye contact may cause redness and transient pain. Slight Irritation
Inhalation	Inhalation of oil mist or vapours at elevated temperatures may cause respiratory irritation.
Skin contact	No known significant effects or critical hazards. Irritation, Dryness, cracking
Ingestion	May be fatal if swallowed and enters airways. Adverse symptoms may include the following:
	Nausea or vomiting. diarrhea
4.3 Indication of any immediate media	cal attention and special treatment needed
Notes to physician	Due to low viscosity there is a risk of aspiration if the product enters the lungs. Treat symptomatically.
Specific treatments	Always assume that aspiration has occurred.
SECTION 5 FIRE FIGHTING MEASU	IRES
5.1 Extinguishing media	
Suitable extinguishing media	Dry chemicals. Foam. Carbon dioxide (CO <sub>2</sub> ). Water spray or foam.
Unsuitable extinguishing media	Do not use direct water jets on the burning product; they could cause splattering and spread the fire.
······································	Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam.
5.2 Special hazards arising from the s	ubstance or mixture
Hazards from the substance	In a fire or if heated, a pressure increase will occur and the container may burst.

A PAR A Tomorrow's solutions today	PAR Industries Limited	Safety Data Sheet Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878.
or mixture Hazardous thermal decomposition products	This substance will float and can be reignited on surface water. Incomplete combustion is likely to give rise to a complex mixture of airborne solid and liquid particula gases, including carbon monoxide, H2S, SOx (sulfur oxides) or sulfuric acid and unidentified organic inorganic compounds.	
<b>5.3 Advice for firefighters</b> Special precautions for firefighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No ac shall be taken involving any personal risk or without suitable training.</li> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SC with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helm protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protect for chemical incidents.</li> </ul>	
Special protective equipment for fire-fighters		
SECTION 6 ACCIDENTAL RELEAS	E MEASURES	
6.1 Personal precautions, protective	equipment and emergency procedures	
For non-emergency personnel	personnel. Except in case of small spillages, advised, if possible, by a trained, competent p to do so. Avoid direct contact with the produ spillages, alert occupants in downwind areas. Eliminate all ignition sources if safe to do so. S air when vapours will be usually quickly dispe exposure to dangerous concentrations. Note : recommended measures are based on this material; however, local conditions (wind, direction and speed) may significantly influence	air temperature, wave/current
For emergency responders	gloves providing adequate chemical resistance Note : gloves made of PVA are not water-resi antistatic non-skid safety shoes or boots. Gog possible or anticipated. Respiratory protection : A half or full-face resp for H2S) a Self Contained Breathing Apparat	esistant and thermal resistant material should be used. Work
6.2 Environmental precautions	Prevent product from entering sewers, rivers of earth, sand or similar non-combustible material treat in accordance with local regulations. In case of small spillages in closed waters equipment. Collect spilled product by absorbi If possible, large spillages in open waters sh means. If this is not possible, control the spre-	or other bodies of water. If necessary dike the product with dry ls. In case of soil contamination, remove contaminated soil and (i.e. ports), contain product with floating barriers or other ng with specific floating absorbents. ould be contained with floating barriers or other mechanical ading of the spillage, and collect the product by skimming or dispersants should be advised by an expert, and, if required,
6.3 Methods and material for contain	nment	
and cleaning up		
Small spill Large spill	water jet. When inside buildings or confined s and other contaminated materials to suitable c	n foam, if available, to limit vapour cloud formation. Do not use paces, ensure adequate ventilation. Transfer collected product ontainers for recovery or safe disposal.
6.4 Reference to other sections	See Section 1 for emergency contact informati See Section 8 for information on appropriate p See Section 13 for additional waste treatment i	personal protective equipment.

# SECTION 7 HANDLING AND STORAGE

7.1 Precautions for safe handling Protective measures

A	PA	٨R
Tomorroy	v's soluti	ons todav

Advice on general occupational hygiene

7.2 Conditions for safe storage, including

Storage

any incompatibilities

Do not ingest. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Prevent the risk of slipping. Take precautionary measures against static discharge. Avoid splash filling of bulk volumes when handling hot liquid products. Empty containers retain product residue and can be hazardous.

Ensure that proper housekeeping measures are in place. Contaminated materials should not be allowed to accumulate in the workplaces and should never be kept inside pockets. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Wash hands thoroughly after handling. Change contaminated clothes at the end of working shift. See also Section 8 for additional information on hygiene measures.

Storage area layout, tank design, equipment and operating procedures must comply with the relevant regional, national, or local legislation. Storage installations should be designed with adequate bonds in case of leaks or spills. Cleaning, inspection, and maintenance of internal structure of storage tanks must be done only by properly equipped and qualified personnel as defined by national, local or company regulations. Store separately from oxidising agents.

Recommended materials for containers, or container linings use mild steel, stainless steel. Not suitable: Some synthetic materials may be unsuitable for containers or container linings depending on the material specification and intended use. Compatibility should be checked with the manufacturer.

Keep only in the original container or in a suitable container for this kind of product. Keep container tightly closed and sealed until ready for use. Do not store in unlabelled containers. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Empty containers may contain harmful, flammable/combustible, or explosive residue or vapours. Do not cut, grind, drill, weld, reuse or dispose of containers unless adequate precautions are taken against these hazards. Store locked up. Protect from sunlight.

7.3 Specific end use(s)	Not available
Recommendations	Not available
Industrial sector specific solutions	

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 8.1 Control parameters

#### **Occupational exposure limits**

Product/Ingredient name	Exposure limits values
Distillate (petroleum), hydrotreated light para	ffinic Work environment authority Regulation 2018:1 (Sweden,9/2021). [old used mineral oil] Absorbed through skin.
	Work environment authority Regulation 2018:1 (Sweden,9/2021). [oil mist, incl. oil fumes]
	TWA: 1 mg/m <sup>3</sup> 8 hours. Form: mist and fume
	STEL: 3 mg/m <sup>3</sup> 15 minutes. Form: mist and fume
Oil mist	[Air contaminant]
	Work environment authority Regulation 2018:1 (Sweden,9/2021). [oil mist, incl. oil fumes] TWA: 1 mg/m <sup>3</sup> 8 hours. Form: mist and fume
	STEL: 3 mg/m <sup>3</sup> 15 minutes. Form: mist and fume
	Work environment authority Regulation 2018:1 (Sweden 9/2021). [old used mineral oil] Absorbed through skin.
Recommended monitoring procedures	If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological
	monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or
	the necessity to use respiratory protective equipment. Reference should be made to monitoring standards,
	such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy)
	European Standard EN 14042 (Workplaceatmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.
8.2 Exposure Control	Mechanical ventilation and local exhaust will reduce exposure via the air. Use oil resistant material in
Appropriate engineering Controls	construction of handling equipment. Store under recommended conditions and if heated, temperature control equipment should be used to avoid overheating.

**APAR Industries Limited** 

Individual protection measures Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location. Wash contaminated clothing before reuse.
Eye/face protection Skin protection	Recommended: Safety glasses with side shields. 4 - 8 hours (breakthrough time): nitrile rubber
Hand protection Body protection	Wear protective clothing if there is a risk of skin contact. Change contaminated clothes at the end of working shift.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and
Respiratory protection	the safe working limits of the selected respirator. Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance	
Physical state	Liquid
Color	Colurlees to Light yellow
Odor	Odorless
Odour threshold	Not available
рН	Not applicable
Melting point/Pour point	< - 40 C (ASTM D-97)
Flash point	> 135°C Pensky-Mertens (ASTM D 93)
Evaporation rate	Not available
Flammability (solid, gas)	Not available
Flammability limits in air,	Not available
lower, % by volume	
Flammability limits in air,	Not available
upper, % by volume	
Vapour pressure	Not available
Density	0.910 max at 15°C
Solubility(ies)	
Solubility (water)	Insoluble in water
Partition coefficient	Not available
(n-octanol/water)	
Decomposition temperature	No Data
Auto-ignition temperature	> 250°C
Viscosity, Kinematic at 40°C (104°F)	0.08 cm²/s to 0.11 cm²/s (8.00 to 11.00 cSt)
Explosive properties	No Data
Oxidising properties	No Data
DMSO extractable compounds for base oil	< 3%
substance(s) according to IP346	
SECTION 10 STABILITY AND READ	CTIVITY

SECTION 10 STABILITY AND REA	CTIVITY
10.1 Reactivity	No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	Stable under normal conditions
10.3 Possibility of hazardous Reactions	Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	Oxidising agent.
10.5 Incompatible materials	Keep away from extreme heat and oxidizing agents.
10.6 Hazardous decomposition products	Incomplete combustion is likely to give rise to a complex mixture of airborne solid and liquid particulates, gases, including carbon monoxide, H2S, SOx (sulfur oxides) or sulfuric acid and unidentified organic and inorganic compounds.

# SECTION 11 TOXICOLOGICAL INFORMATION

# 11.1 Information on toxicological effects

Acute	toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Distillate (petroleum),hydrotreated light	LC50 Inhalation Dusts and mists	Rat	>5.53 mg/l	4 hours
paraffinic	LD50 Dermal	Rabbit	>5000 mg/kg	-
	LD50 Oral	Rat	>5000 mg/kg	-
Irritation/Corrosion				
Skin	No known significant effects or critical hazards.			
Eye	No known significant effects or critical hazards.			
Respiratory	No known significant effects or critical hazards.			
Sensitisation				
Skin	No known significant effects or critical hazar	ds.		
Respiratory	No known significant effects or critical hazards.			
Mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or			
genotoxic.				
SECTION 11 TOXICOLOGICAL INFORMATION				

Carcinogenicity	he base oil(s) in this product is based on an severely hydrotreated distillate. The product should not be	
	regarded as a carcinogen.	
Reproductive toxicity	Contains no ingredient listed as toxic to reproduction.	
Specific target organ toxicity	Not classified	
- single exposure		
Specific target organ toxicity	Not classified	
- repeated exposure		
Aspiration hazard	Aspiration hazard - Category 1	
Information on likely routes of exposure	Not available.	
Potential acute health effects		
Eye contact	Eye contact may cause redness and transient pain.	
Inhalation	Inhalation of oil mist or vapours at elevated temperatures may cause respiratory irritation.	
Skin contact	No known significant effects or critical hazards.	
Ingestion	May be fatal if swallowed and enters airways.	
Potential chronic health effects		
General	No known significant effects or critical hazards.	
Carcinogenicity	The base oil(s) in this product is based on an severely hydrotreated distillate. The product should not be	
	regarded as a carcinogen.	
Mutagenicity	No known significant effects or critical hazards.	
Teratogenicity	No known significant effects or critical hazards.	
Product/ingredient name	No known significant effects or critical hazards.	
Fertility effects	No known significant effects or critical hazards.	
Other information	Not available.	
Specific hazard		
Endocrine disrupting properties	Not listed	

SECTION 12 ECOLOGICAL INFORMATION			
12.1 Toxicity	Not expected to be harmful to aquatic organisms.		
12.2 Persistence and degradability	Inherently biodegradable.		
12.3 Bioaccumulative potentialBioaccumulation is unlikely to be significant because of the low water solubility of this product.12.4 Mobility in soilNot considered mobile.			
		12.5 Results of PBT & vPvB Assessment	PBT & vPvB Assessment Not applicable.
12.6 Endocrine disrupting properties Not listed			
12.6 Other adverse effects	Insoluble in water. Spills may form a film on water surfaces causing physical damage to organisms.		
	Oxygen transfer could also be impaired.		

Safety Data Sheet Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878.

### SECTION 13 DISPOSAL CONSIDERATIONS

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be

consulted for any available use-specific information provided in the Exposure Scenario(s).

## 13.1 Waste treatment methods

Product

Methods of disposal

Hazardous waste

Where possible (e.g. in the absence of relevant contamination), recycling of used substance is feasible and recommended. This substance can be burned or incinerated, subject to national/local authorizations, relevant contamination limits, safety regulations and air quality legislation. Contaminated or waste substance (not directly recyclable): Disposal can be carried out directly, or by delivery to qualified waste handlers. National legislation may identify a specific organization, and/or prescribe composition limits and methods for recovery or disposal.

Yes

SECTION 13 DISPOSAL CONSIDERATIONS		
European waste catalogue (EWC)		
Waste code	Waste designation	
13 03 07*	mineral-based non-chlorinated insulating and heat transmission oils	
Packaging		
Methods of disposal	The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.	

## SECTION 14 TRANSPORT INFORMATION International transport regulations

	ADR/ RID	ADN	IMO/IMDG Classification	ICAO/IATA Classification
14.1 UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
14.2 UN proper shipping name	-	-	-	-
14.3 Transport hazard class(es)	-	-	-	-
14.4 Packing group	-	-	-	-
14.5 Environmental hazards	No	No	No	No
Additional information	-	-	-	-

14.6 Special precautions for User **Transport within the user's premises:** always transport in closed containers that are upright and secure. Ensure that the persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to

Annex I of MARPOL 73/78 and the

IBC Code

### **SECTION 15 REGULATORY INFORMATION**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH) Annex XIV - List of substances subject to authorization

Oils

Annex XIV	None of the components are listed.
Substances of very high concern	None of the components are listed.
Annex XVII - Restrictions on the manufacture, placing on the market and	Not applicable.
use of certain dangerous substances, mixtures and articles	
Other EU regulations	
Industrial emissions (integrated pollution prevention and control) - Air	Not listed
Industrial emissions (integrated pollution prevention and control) -Water	Not listed
Ozone depleting substances (1005/2009/EU)	Not listed
Prior Informed Consent (PIC) (649/2012/EU)	Not listed

Persistent Organic Pollutants

Seveso Directive
